### Completion of A, B, and C is required: (Please be specific, but concise.)

#### A. 1. Specific action requested: (Example: Increase the number of credit hours for ABC 100 from 1 to 2.)

Create new minor in Pre-Law

#### A. 2. Proposed Effective Academic Term: (Example: Fall 2016)

Fall 2020

#### A. 3. Effective date of suspended programs for currently enrolled students: (if applicable)

---

#### B. The justification for this action:

At present, 85 admitted students are listed as “Pre-Law” and will be immediately advised at orientation into other majors and minors. This number is consistent with past years, showing that there is clearly a demand for a Pre-Law program that we are not directly meeting with our major or minor offerings. While EKU currently offers a Legal Studies minor, it is “an interdisciplinary, liberal arts study of the law.... While an excellent major for students considering law school and legal careers, [the Legal Studies Minor] is not intended for pre-law or paralegal training.” Similarly, EKU offers a Paralegal Science major and Paralegal Studies minor, but these programs are primarily designed to train support staff in the legal field.

The Pre-Law minor, in contrast, would be directly focused on students considering law school, organizing our existing course offerings into a coherent plan that introduces them to the study of law, requires them to take courses that give them a strong foundation in legal terminology and concepts, trains them in legal writing and research, and allows them to select electives within the minor that relate directly to what they will learn in law school and practice on the job as attorneys.

---

#### C. The projected cost (or savings) of this proposal is as follows:

**Personnel Impact:** None. No new courses are proposed and department chairs have indicated that additional students could be accommodated in existing sections of all of the minor’s course options.

**Operating Expenses Impact:**
**Equipment/Physical Facility Needs:**

**Library Resources:** Adequate

**Pre-Law minor**

The Pre-Law Minor is an interdisciplinary program specifically designed for students considering law school and a career as an attorney after graduation. It is designed to supplement a student’s chosen major(s) by providing a strong foundation in basic legal concepts as well as legal research and writing. The minor incorporates course work from several disciplines related to law to develop students’ advocacy and interpersonal skills and introduce them to legal concepts in specific areas of legal practice.

While law schools do not require any particular undergraduate course of study before applying, the Pre-Law Minor encourages and enables students to make a more informed decision on whether they wish to attend law school and pursue a career as an attorney. A student may minor in Pre-Law by successfully completing LAS 210 (3 hours), LAS 220 (3 hours), and an additional 12 hours from other courses listed below in CMS, POL, CRJ, PLS, and COR. A student may apply no more than 9 hours from any one prefix to the minor. A maximum of 6 hours of POL 466 (Mock Trial) may be applied to the minor.

**Required Courses** ........................................................................................................................................ 6 hours

LAS 210; LAS 220

**Select an additional 12 hours from courses below, with a maximum of 9 hours from any one prefix:**

- CMS 205/205W; CMS 325; CMS 420; CMS 450
- CRJ 313; CRJ 314; CRJ 323
- GBU 204
- LAS 300
- PLS 216; PLS 316; PLS 416
- POL 360; POL 460; POL 463; POL 464; POL 466 (maximum 6 hours); POL 495 (Special Topics: Trial Advocacy and Procedure)

**Total Program Requirements** .................................................................................................................. 18 hours

Course substitutions may be approved by the Chair of the Department of Government.
New Minor, Concentration, or Department Certificate
Proposal Approval Form

When proposing a new minor, concentration, or department certificate, the following factors should be considered:

- Minors and certificates often add time to degree.
- Minors can increase the number of credit hours that students have at graduation.
- Minors and certificates can potentially increase student debt because of the factors above.
- Minors, concentrations, and department certificates can significantly add to faculty workloads.
- Minors, concentrations, and department certificates increase the need for oversight and administration.

The following information should be provided in addition to the normal curriculum change forms. Before a new minor, concentration, or department certificate is submitted to CAA, the Dean must approve the proposal based on the information on this form and any other information requested by the Dean.

Proposal: Pre-Law Minor
CLASS
April 2019

From the Proposing Program
1. How will the new minor, concentration, or department certificate attract new students to EKU? On what is this based? What is the marketing plan?

The Pre-Law Minor will provide a focal point for marketing to prospective students interested in law school after graduation. Currently students who list “pre-law” as their planned major in application materials must be advised upon arriving that no such major or minor exists, which sometimes leaves them confused and frustrated as they try to pick a new major upon their first interaction with an EKU advisor at or before orientation.

As it currently stands, NKU may have a competitive advantage over EKU in recruiting pre-law students because of its Pre-Law Minor:

While EKU’s actual course and program offerings for pre-law students compare favorably with NKU’s, simply having a Pre-Law minor with an established curriculum is a distinction that NKU’s recruiters can cite when contrasting our schools’ strengths and weaknesses for prospective students.

2. What is the justification for the proposed curriculum proposal? (i.e., industry demand, job market, accreditation requirement, etc.) Provide evidence.

At present, 85 admitted students are listed in DegreeWorks as “Pre-Law” and will be immediately advised at orientation into other majors and minors. This number is consistent with past years, showing that there is clearly a demand for a Pre-Law program that we are not directly meeting with our major or minor offerings. While EKU currently offers a Legal Studies minor, it is “an interdisciplinary, liberal arts study of the law... [w]hile an excellent major for students considering law school and legal careers, it is not intended for pre-law or paralegal training.” Similarly, EKU offers a Paralegal Science major and Paralegal Studies minor, but these programs are specifically designed to train support staff in the legal field, not students planning to attend law school.

The Pre-Law minor, in contrast, would be directly focused on students considering law school, organizing our existing course offerings into a coherent plan that introduces them to the study of law, requires them to take courses that give them a strong foundation in legal terminology and concepts, trains them in legal writing and research, and allows them to select electives within the minor that provide further education on topics that relate directly to what they will learn in law school and practice on the job as attorneys.
3. What are the qualifications of the faculty to teach the curriculum? Are there sufficient faculty resources to teach the curriculum? Explain.

The Pre-Law minor would consist entirely of existing course offerings. The six hours of coursework specifically required in the minor, LAS 210 (Introduction to Law) and LAS 220 (Legal Research & Writing I), are taught by EKU Paralegal Program faculty with Juris Doctorate degrees who have attended law school and practiced law. Students then select 12 hours from other existing courses in CMS, POL, CRJ, PLS, and COR, where they will be trained by qualified faculty well-versed in those disciplines.

4. What are the potential costs of the proposed curriculum addition, especially 3-5 years from implementation? Fully explain the answer, particularly if there are no perceived costs.

The costs of implementing a Pre-Law minor are minimal. All courses listed in the minor are currently being taught, so no additional faculty will be required unless the minor becomes so popular that those courses become oversubscribed. LAS 210 and LAS 220 have multiple sections, including online sections that are scalable (using the online facilitator model) at a lower cost than adding an in-person section of the same course.

From an advising standpoint, pre-law students already have a designated advisor, so this would not increase the advising load and will make pre-law advising easier, as currently students are individually advised to seek out the courses that constitute the proposed minor. The structure of an established pre-law minor will ensure that students in the minor take LAS 210 and 220 early enough in their college careers to make an informed decision on whether to take the LSAT and apply for admission to law school.

From the Dean

How will costs of the proposed addition be covered? (Complete A or B, or both if applicable)

A. New Resources. Explain.

The minor should not require any new resources in terms of faculty or advising, with the exception of possibly expanding sections of LAS 210 and 220 if the minor is wildly successful in attracting students who are not already taking those courses.

B. Reallocation of resources. Explain.

The Pre-Law Advisor will be responsible for advising students in the Pre-Law minor. This should require very little reallocation of resources, as many of these students are currently being advised as pre-law students.

I have thoroughly reviewed the proposal and the above responses and I support the proposal moving forward.

B. The justification for this action:
There are several “routes” that candidates may take to pursue certification in school library services. In the catalog, the program is labeled “School Media Librarian” in one place and “Library Science” in others. Changing all of them to “School Librarian” provides consistency and clarity. In addition, the note about the Professional Education Admissions Committee is incorrect. That committee evaluates initial license candidates, not advanced license candidates. Other admissions information is updated, based upon the latest requirements from EPSB/OELE and is consistent with other documentation that is shared with candidates regarding their program requirements.

### Completion of A, B, and C is required: (Please be specific, but concise.)

**A. 1. Specific action requested:** (Example: Increase the number of credit hours for ABC 100 from 1 to 2.)

Replace EGC 847 MAT Seminar (3) with ETL 805 Research for Teacher Leaders (3) as the research methodology course in the MAT degree.

*Previous curriculum was passed by CAA in October 2018 to adjust EGC 847 from 1 cr. to 3 cr. effective Fall 2019 so this would be an even switch of credit hours. Information currently not visible in catalog copy.*

**A. 2. Proposed Effective Academic Term:** (Example: Fall 2016)

Fall 2020

**A. 3. Effective date of suspended programs for currently enrolled students:** (if applicable)

n/a

**B. The justification for this action:**

Both MAT and MAED degree candidates complete a two course series to fulfill the Capstone Research requirements of the degree. The program has determined that moving the MAT degree candidates into the newly redesigned ETL 805 course and eliminating EGC 847 increases effectiveness by ensuring candidates are instructed by full time faculty rather than adjunct instructors. This ensure that Capstone Research for both degrees has the same rigor. Both degree majors already take ETL 806 Capstone Research together and it has been very effective.

**C. The projected cost (or savings) of this proposal is as follows:**

**Personnel Impact:** This change will decrease the number of adjunct faculty by one instructor.

**Operating Expenses Impact:** This change will decrease budget requirements with the elimination of EGC 847 from the schedule when enrollment is rolled into ETL 805.

**Equipment/Physical Facility Needs:** n/a

**Library Resources:** n/a

Completion of A, B, and C is required: (Please be specific, but concise.)

A. 1. Specific action requested:  
(Example: Increase the number of credit hours for ABC 100 from 1 to 2.)  
Adjust the School Media Librarian program name to be consistent across all certification routes. Clarify admission requirements.

A. 2. Proposed Effective Academic Term:  
(Example: Fall 2016)  
Fall 2020

A. 3. Effective date of suspended programs for currently enrolled students:  
(if applicable)  
N/A

B. The justification for this action:

There are several “routes” that candidates may take to pursue certification in school library services. In the catalog, the program is labeled “School Media Librarian” in one place and “Library Science” in others. Changing all of them to “School Librarian” provides consistency and clarity. Also, admissions and exit information is updated, based upon the latest requirements from EPSB/OELE. These updates are also consistent with other documentation (e.g., curriculum contracts) that is shared with candidates regarding their program requirements.

C. The projected cost (or savings) of this proposal is as follows:

Personnel Impact: None
Operating Expenses Impact: None
Equipment/Physical Facility Needs: None
Library Resources: None
