**Completion of A, B, and C is required: (Please be specific, but concise.)**

**A. 1. Specific action requested:** (Example: To increase the number of credit hours for ABC 100 from 1 to 2.)

Create a degree in Fire Administration with 128 hours required which will replace the Fire Administration Option currently within the Fire and Safety Engineering Technology curriculum.

**A. 2. Effective date:** (Example: Fall 2001)

Fall 2010

**A. 3. Effective date of suspended programs for currently enrolled students:** (if applicable)

Fall 2016

**B. The justification for this action:**

Attaining accreditation for the Fire Protection Engineering Technology and Industrial Safety portions of our programs through ABET (Accreditation Board for Engineering and Technology) will benefit the professional development of graduates. Currently the Fire and Safety Engineering Technology curriculum has four study options, Fire Administration, Fire Protection Engineering Technology, Fire, Arson, and Explosion Investigation and Industrial Safety and Risk Management. To obtain this accreditation, the plans of study that are now under a single degree must be separated into a single track to obtain the degree. Curriculum will remain constant for the newly developed degrees while offering the greatest flexibility for graduates. Continued accreditation of the Fire, Arson and Explosion Investigation curriculum will be sought under the International Fire Service Accreditation Congress (IFSAC).

**C. The projected cost (or savings) of this proposal is as follows:****Personnel Impact:**

Current curriculum includes courses for options within the Fire and Safety Engineering Technology Degree thus, no new courses or additional faculty will be required for this change.

**Operating Expenses Impact:**

Current curriculum includes courses for options within the Fire and Safety Engineering Technology Degree thus, no new courses or additional faculty will be required for this change.

**Equipment/Physical Facility Needs:**

Current curriculum includes courses for options within the Fire and Safety Engineering Technology Degree thus, no new courses or additional faculty will be required for this change.

**Library Resources:**
