Call for Proposals

The 2017 Pedagogicon

A conference sponsored by the Kentucky Council on Postsecondary Education

19 May 2017
Noel Studio for Academic Creativity
Eastern Kentucky University
Richmond, KY

Proposals Due: 1 February 2017

Submit proposals online: studio.eku.edu/pedagogicon-proposal-submission-2017

Innovations in Teaching and Learning

The conference theme, “Innovations in Teaching and Learning,” encourages us to examine and promote those strategies for teaching and learning that engage new and forward-thinking approaches.

Do you have an exceptional strategy to share with an audience of instructors seeking to excel? Do you have a new theory or practice that might enhance teaching and learning, faculty development, or educational practices at your institution and beyond? Presenters are encouraged to engage their audience for approximately 45 minutes through a demonstration, so preference will be given to those submissions that specify how this engagement will be provided. The conference will hold an opening plenary session to focus on innovations in teaching and learning.

Threads might include but are not limited to:

- High-Impact Educational Practices
- Use of technology to enhance teaching and learning
- Creative instructional techniques that engage students in learning, especially deep learning
- Innovative faculty development initiatives, programs, and processes
- New ways to use Scholarship of Teaching and Learning (SoTL) to enhance teaching and learning
- Ways to incorporate diversity into teaching and learning
We welcome submissions by individuals and groups from the Commonwealth, across the country, and around the world. Submit proposals online. Please remove any identifying information, including institution, from the abstract and description.

Review of Proposals Criteria

- Clarity and coherence of the session description
- Specific examples of active engagement of participants
- Likelihood session will provide useful information, skills, ideas
- Contributions to new or innovative practices
- Relevance to conference theme and CPE foci

Questions or Ideas?

Contact Tori Bowman at tori.bowman@eku.edu for more information.

 Deadline for Submissions: 1 February 2017

Research Posters

Poster presenters should print posters at 36x48. We will provide easels, foam board, and clips for each poster. Posters will be displayed in the Noel Studio Greenhouse during lunch. Presenters are welcome to set up their poster in the morning or at any time before lunch.

*Journal of Faculty Development* - Special Section on Innovations in Faculty Development

September 2017 Issue

Academic institutions across the country and internationally have considered the role of innovation in faculty development initiatives. From faculty recruitment to campus programming and technology, institutions are thinking in new ways about how we design and implement faculty development to enhance teaching and learning. The special section of the Journal of Faculty Development invites submissions focused on innovations in faculty development that contribute to, enhance, or complicate teaching and learning. Threads to consider include:

- Ways in which innovations in teaching and learning contribute to faculty development efforts
- The multiple ways we define innovation for faculty development
- Innovative models of faculty development that contribute to teaching and learning
- Ways in which technology and media offer new affordances for innovation
- Complications associated with innovation and how we might address them

Please indicate your interest in having your work reviewed for the special section when you submit your Pedagogicon proposal. Read more about the *Journal of Faculty Development*.
