- III. Posting the Map on the Student Success Center Website
 - a. The Committee discussed with Dr. Lara Vance the idea of “housing” the Map on the Student Success website. She was happy to host the Map and information, but she also recommended the idea of proposing a faculty.eku.edu website which could host this material and more. She noted a problem of using the PDF format; we need a web design format for ease of use. Having a “Contact Us” form would be beneficial to ensure continuity. Essential information from the Map can be posted for present purposes, clearly labeled as a draft/temporary file pending full development of a proper “landing page” designed by an EKU webmaster that is user friendly, attractive, and interactive.
