SEN 1920 019

A Resolution in Support of the University Policy on the Pre-Final Examination Week (4.1.5P)

- Whereas, The Student Government Association is dedicated to advocating, serving, and accommodating all levels of needs of the student body of Eastern Kentucky University, The Student Senate not only represents the needs of the students, but also strives for students to voice their opinions and concerns in all University matters; and,
- Whereas, Students' mental health, alongside the integrity of their academic experiences, should be of utmost concern when considering policy changes at the University-level that directly affect the student body, as they should not be subject to undue stress and anxiety during examination periods; and,
- Whereas, Eastern Kentucky University's commitment to academic achievement and learning satisfaction of students is paramount in its existence as an institution of higher education, and as such, requires the viewpoint of students as partners when creating, altering, or eliminating existent academic policies that directly impact their educational experience; and,
- Whereas, Students deserve to learn in a positive environment in which they feel a strong sense of safety (both physical and psychological), inclusion, and engagement, which necessitates the compromise between administrative and student perspectives alike, in which students are able to effectively voice their opinions and receive appropriate responses to them; be it therefore,
- Resolved, The Student Government Association of Eastern Kentucky University supports the continuation of the current state (with potential, minor alterations) of the Pre-Final Examination Week Policy (4.1.5P).
